The 50 Secrets of Self-Confidence was first published as Secrets of Confident People. Lancaster Adams is a medical doctor, surgeon, scientist and medical missionary. He describes his quest to comprehend the underlying science of a disturbing dream, one with a premonition he had just before his father's illness killed him. The dream communicated hard facts about his father's heretofore unknown mortal illness across a span of 6,000 miles. This incident prompted real world communication that confirmed his father's impending death. Some might say this is a common enough experience, but the author asks how this is possible. Revelations of Your Self-Help Book

Secrets begins with explaining the brain's function, the role of quantum physics and our current incomplete knowledge of the neuroscience of dreaming. This journey through neuroscience and self-help literature explores what has in the past been termed "psychic phenomena." Using light-hearted humor and anecdotes, the book draws heavily on the thinking associated with self-help literature to illuminate how our brains actually work. It is hoped that through our shared common humanity, we will identify aspects of our lives that will provide support and guidance to prove we are not alone in an existential nothingness. Human evolution has permitted us to communicate with each other in ways that require much more attention from neuroscientists and psychologists. It is time to uncover more of our mind's workings that have previously been shunned.

About the Author: Raised near Liverpool, England, Lancaster Adams now resides in Newport Beach, California, where he is an eye surgeon. He is currently writing his next book. Publisher's website: <http://sbpra.com/LancasterAdams>

Allama Mohammad Iqbal, whom Sarojini Naidu called the 'Poet laureate of Asia', remains a controversial figure in the history of the Indian subcontinent. On the one hand, he is considered the 'Spiritual Father of Pakistan'. On the other, his message of Eastern revivalism places him in the ranks of the twentieth century's major intellectuals. Iqbal's tragedy was that after his death, he was made the national poet of Pakistan and largely ignored in India. In his time, he was lauded as much as Tagore, but today India celebrates Tagore while Iqbal has been banished from her consciousness. This meticulously researched biography will redress that erasure. This is the story of Iqbal's evolution as a poet, philosopher and politician. While his role in the struggle for India's freedom and the Pakistan movement are well known, not much is known about his personal life. This book highlights some of the least known facets of the poet's life: how did a

nationalist poet transform into a poet of Islamic revivalism and global revolution? How did three years in Europe change Iqbal's political and philosophical outlook? Why did he start writing in Persian during his stay in Europe? Why did his first marriage fail and how did his romantic relationships affect him? What exactly was the poet's role in bringing about Partition? Written with the passion of an ardent devotee, Zafar Anjum's Iqbal answers all of these questions—and many more—in this carefully told biography. The Secrets of the Self is a book-length, philosophical poem rooted in metaphysical thought and ideology, as well as Islamic theology. Originally published in 1915, the poem speaks of the "Self" in relation to the universe, how it is the inner power and soul of each individual human. It instructs on how to improve the Self through Love and willpower, which can then help one control the forces within the universe. The poem includes stories that illustrate its points and promotes the spread of Islamic ideals.
