Clinical Procedures for Medical Assistants - E-Book
May 31 2020 Learn the procedures and skills you need to succeed as a medical assistant! **Clinical Procedures for Medical Assistants, 9th Edition** provides clear, step-by-step instructions for common office procedures such as taking vital signs, collecting and processing lab specimens, preparing patients for examinations, and assisting with office surgeries. Written by expert educator **Kathy Bonewit-West**, this full-color edition covers the latest competencies and topics in today's medical assisting practice including emergency preparedness and the updated fecal occult blood testing procedure. The Evolve companion website includes videos of 84 procedures described in the book, preparing you to become a competent clinical medical assistant. Over 120 procedures are presented in a clear, illustrated, step-by-step format, with online videos showing 84 of the procedures in action. Chapter outlines and learning objectives prepare you for the skills and concepts you will be learning. **What Would You Do? What Would You Not Do?** case studies challenge you to apply your knowledge to realistic medical office situations — with a practitioner's response at the end of chapters. **Putting It All Into Practice** and **Memories from Practicum** boxes feature real medical assistants sharing personal, on-the-job

experiences. Key Terms and Terminology Review help you master medical assisting terminology. Charting examples help you understand the process for charting your own procedures. Patient Teaching boxes prepare you for effective communication, with detailed instructions on how to answer questions and how to explain medical concepts and procedures. Student resources on the Evolve companion website offer a fun way to practice your medical assisting knowledge with animations, games such as Quiz Show and Road to Recovery, drag-and-drop exercises, Apply Your Knowledge exercises, matching exercises, and other interactive activities (blood pressure readings, determining height and weight, drawing up medication), as well as all video procedures and practicum activities. UPDATED fecal occult blood testing procedure includes new video demonstrating this procedure. UPDATED examples of medical assistants using an EHR are demonstrated in the video procedures, showing the use of electronic charting. Updated venipuncture photos show how to perform venipuncture. UPDATED content also includes topics such as the medical record, including HIPAA, electronic medical records, and advanced directives; emergency preparedness; the use of computer technology; medical asepsis; AIDS & hepatitis; latex glove allergies & non-latex gloves; vital signs including temporal artery thermometer, pulse oximetry, and the significance of pulse pressure; pediatrics including immunization information and IM

injection theory; the colonoscopy; IV therapy; and the latest CLIA waived tests. All 84 procedure videos are now available on the Evolve companion website for convenient viewing

Dermatology Essentials for Medical Assistants Nov 29 2022

Intravenous Infusion Therapy for Medical Assistants Sep 15 2021 This essential publication focuses on what the CMA needs to know about intravenous infusion therapy. Infusion or IV therapy has long been part of the acute care of patients. However, more patients are receiving IV therapy at home, in emergency centers, at infusion centers, and in dialysis clinics. Thus, CMAs often need to understand IV therapy to lay out the equipment, to monitor the patient, to assess the infusion site, to discontinue the infusion, and perhaps even to insert the IV. The purpose of this book is to help you understand the theory of IV therapy. With patient safety in mind, risks, complications, and adverse reactions are discussed in Intravenous Infusion Therapy for Medical Assistants. Giving the correct medication is crucial to the CMA, so intravenous infusion preparations are compared and contrasted. Sidebars of Medical Assisting Alerts and Tips are distributed throughout the text to highlight key safety concerns and professional issues. Each chapter concludes with Review Questions and Activities to ensure that learning objectives have been met.
