Poststructuralism changes the way we understand the relations between human beings, their culture, and the world. Following a brief account of the historical relationship between structuralism and poststructuralism, this Very Short Introduction traces the key arguments that have led poststructuralists to challenge traditional theories of language and culture. Whilst the author discusses such well-known figures as Barthes, Foucault, Derrida, and Lacan, she also draws pertinent examples from literature, art, film, and popular culture, unfolding the poststructuralist account of what it means to be a human being. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable. Verification in an Age of Insecurity takes the reader into some of the most urgent arms control issues facing the world community, including the nuclear activities of rogue states and threats from sophisticated non-state actors. In the book, national security expert Philip D. O'Neill, Jr. identifies and addresses issues from the resuscitated disarmament agenda, from the comprehensive test ban to fissile material and biological weapons. O'Neill examines the need for shifts in verification standards and policy suitable for our volatile era and beyond it. He surveys recent history to show how established verification procedures fail to produce the certainty necessary to meet today's threats. Verification in an Age of Insecurity goes beyond a discussion of rogue states like North Korea to offer suggestions on how best to bring compliance policy up to date with modern threats. "Collaborative effort by Health Canada, Statistics Canada and the Canadian Institute for Health Information"--P. 1. This authoritative volume reviews the breadth of current scientific knowledge on subjective well-being (SWB): its definition, causes and consequences, measurement, and practical applications that may help people become happier. Leading experts explore the connections between SWB and a range of intrapersonal and interpersonal phenomena, including personality, health, relationship satisfaction, wealth, cognitive processes, emotion regulation, religion, family life, school and work experiences, and culture. Interventions and practices that enhance SWB are examined, with attention to both their benefits and limitations. The concluding chapter from Ed Diener dispels common myths in the field and presents a thoughtful agenda for future research. This book examines the well-being of China's rural elderly in the context of a rapidly aging population. Traditional sources of support are coming under strain with population aging and the migration of youth, making it imperative that pension coverage be extended to the rural population. Totally revised and updated, this classic history of the 110 members of the U.S. Supreme Court addresses the vital questions of why individual justices were nominated to the highest court, how their nominations were received, whether the appointees ultimately lived up to the expectations of the American public, and what their legacy was on the development of American law and society. Enhanced by photographs of every justice from 1789 to 2007. In recent years, cultural commentators have sounded the alarm about the dire state of reading in America. Americans are not reading enough, they say, or reading the right books, in the right way. In this book, Alan Jacobs argues that, contrary to the doomsayers, reading is alive and well in America. There are millions of devoted readers supporting hundreds of enormous bookstores and online booksellers. Oprah's Book Club is hugely influential, and a recent NEA survey reveals an actual uptick in the reading of literary fiction. Jacobs's interactions with his students and the readers of his own books, however, suggest that many readers lack confidence; they wonder whether they are reading well, with proper focus and attentiveness, with due discretion and discernment. Many have absorbed the puritanical message that reading is, first and foremost, good for you--the intellectual equivalent of eating your Brussels sprouts. For such people, indeed for all readers, Jacobs offers some simple, powerful, and much needed advice: read at whim, read what gives you delight, and do so without shame, whether it be Stephen King or the King James Version of the Bible. In contrast to the more methodical approach of Mortimer Adler's classic *How to Read a Book* (1940), Jacobs offers an insightful, accessible, and playfully irreverent guide for aspiring readers. Each chapter focuses on one aspect of approaching literary fiction, poetry, or nonfiction, and the book explores everything from the invention of silent reading, reading responsively, rereading, and reading on electronic devices. Invitingly written, with equal measures of wit and erudition, *The Pleasures of Reading in an Age of Distraction* will appeal to all readers, whether they be novices looking for direction or old hands seeking to recapture the pleasures of reading they first experienced as children. This easy-to-use pocket guide, compiled from the sixth edition of the "Publication Manual of the American Psychological Association," provides complete guidance on the rules of style that are critical for clear communication. A comprehensive survey of one of the most important texts of the Middle Ages. In addition to books, the Manual now also treats journals and electronic publications. The Idaho Code Citorator provides up-to-date and accurate case history on each case appearing in our Idaho Code. Compiled by our expert editorial team and the Shepard's Citations group, this annually updated publication is an intuitively organized companion to the Code. Using the Citorator and Shepard's, a cornerstone of the legal profession for over 100 years, you can find additional supporting authority, including citations from decisions of Idaho courts, the U.S. and Idaho Supreme Courts, state and Federal appeals courts, as well as secondary sources including law reviews and annotations. Shepard's citations allow you to see the entire progression of opinions and citations with editorial treatments (e.g., explained or distinguished) so you can develop a more thorough analysis of your case. On the day of her father's funeral, twenty-eight-year-old Clarissa Iverton discovers that he wasn't her biological father after all. Her mother disappeared fourteen years earlier, and her fiancé has just revealed a life-changing secret to her. Alone and adrift, Clarissa travels to mystical Lapland, where she believes she'll meet her real father. There, at a hotel made of ice, Clarissa is confronted with the truth about her mother's history, and must make a decision about how—and where—to live the rest of her life. Since its publication in 1985, the "MLA Style Manual" has been the standard guide for graduate students, teachers, and scholars in the humanities and for professional writers in many fields. Extensively reorganized and revised, the new edition contains several added sections and updated guidelines on citing electronic works—including materials found on the World Wide Web. What is the nature of law as a

form of social order? What bearing do values like justice, human rights, and the rule of law have on law? Which values should law serve, and what limits must it respect in serving them? Are we always morally bound to obey the law? What are the philosophical problems that arise in specific areas of law, from criminal and tort law to contract law and public international law? The book provides an accessible, comprehensive, and high quality introduction to the major themes of legal philosophy written by a stellar international cast of contributors, including John Finnis, Martha Nussbaum, Fred Schauer, Onora O'Neill and Antony Duff. The volume is an exceptional teaching tool that provides a critical introduction to cutting-edge work in the philosophy of law. This public domain book is an open and compatible implementation of the Uniform System of Citation. The Publication Manual of the American Psychological Association is the style manual of choice for writers, editors, students, and educators in the social and behavioral sciences, nursing, education, business, and related disciplines. How well can you answer pet owners' questions about proper diet and feeding? Canine and Feline Nutrition, 3rd Edition describes the role of nutrition and its effects upon health and wellness and the dietary management of various disorders of dogs and cats. By using the book's cutting-edge research and clinical nutrition information, you'll be able to make recommendations of appropriate pet food and proper feeding guidelines. Pet nutrition experts Linda P. Case, MS, Leighann Daristotle, DVM, PhD, Michael G. Hayek, PhD, and Melody Foess Raasch, DVM, provide complete, head-to-tail coverage and a broad scope of knowledge, so you can help dog and cat owners make sound nutrition and feeding choices to promote their pets' health to prolong their lives. Tables and boxes provide quick reference to the most important clinical information. Key points summarize essential information at a glance. A useful Nutritional Myths and Feeding Practices chapter dispels and corrects common food myths. New clinical information covers a wide range of emerging nutrition topics including the role of the omega-3 and omega-6 fatty acid families in pet health and disease management. Coverage of pet food safety and pet food ingredients includes both commercially and home-prepared foods and provides answers to pet owners' questions on these topics. Completely updated content reflects the latest findings in clinical nutrition research. Information regarding functional ingredients and dietary supplementation provides a scientifically based rationale for recommending or advising against dietary supplements. Guidelines for understanding pet food formulations and health claims differentiate between "market-speak" and actual clinical benefits for patients, with practice advice for evaluating and selecting appropriate foods. Praise for the second edition: "... the most useful book any new postgraduate could ever buy." (New Scientist) "The book certainly merits its acceptance as essential reading for postgraduates and will be valuable to anyone associated in any way with research or with presentation of technical or scientific information of any kind."(Robotica) Like its predecessors, the third edition of Research Methods for Postgraduates is accessible and comprehensive, and is a must-read for any postgraduate student. There are two golden rules for the citation of legal authorities. One is consistency. The other is consideration for the reader. Legal writing is more persuasive when the author refers to legal materials in a clear, consistent and familiar way. The Oxford University Standard for Citation of Legal Authorities (OSCOLA) helps authors to achieve consistency in citing cases, legislation and secondary sources. And it helps authors to make life easier for their readers. OSCOLA is widely used by law schools and legal publishers both in the United Kingdom and abroad. This latest revision of OSCOLA (the fourth edition) is the first to be published in hard copy, and provides more detailed coverage of both primary and secondary legal sources. The editors are Donal Nolan and Sandra Meredith. Shortlisted for the Halsbury Legal Awards 2013 in the Award for Academic Contribution category. In view of the fundamental differences between national and international sources of law, citation rules found adequate for domestic legal research often are inappropriate when applied to international and foreign legal materials. The "International Citation and

Research Guide" (The Greenbook) is a ground-breaking project tailored to the needs of an international readership by providing information useful for worldwide and highly diverse professionals. The ICRG set, conveniently organized into global regions, is a source of foundational and comprehensive citation standards for scholars working with all types of international and foreign materials. It presents each citation standard in the context of that country or organization's history and legal institutions. It is also a general resource of basic legal background on international organizations and countries that would otherwise be difficult to research. It can be used as a companion to The Bluebook, whose coverage of international sources is necessarily limited. Staff members researched legal as well as other existing governmental citations in order to create and/or interpret and implement citations. The examples reflect local or international citation practice for documents written in English, harmonizing them to provide a flexible global standard of legal citation. Each chapter also has an introduction to provide the country's background and political structure.--Publisher. "Filled with wisdom and thought experiments and things that will mess with your mind." — Neil Gaiman, author of *The Graveyard Book* and *American Gods* In sharply argued, fast-moving chapters, Cory Doctorow's *Information Doesn't Want to Be Free* takes on the state of copyright and creative success in the digital age. Can small artists still thrive in the Internet era? Can giant record labels avoid alienating their audiences? This is a book about the pitfalls and the opportunities that creative industries (and individuals) are confronting today — about how the old models have failed or found new footing, and about what might soon replace them. An essential read for anyone with a stake in the future of the arts, *Information Doesn't Want to Be Free* offers a vivid guide to the ways creativity and the Internet interact today, and to what might be coming next. This book is DRM-free. The leader in Canadian communication studies for twenty-five years, this highly-anticipated new edition introduces the history, theories, and basic concepts of traditional media, while integrating the latest information on digitization and various types of new media. The authors explore a widerange of exciting topics including media culture and politics, media content, audiences, law and policy, the structure and role of media ownership, journalists as content producers, the effects of media convergence, and globalization. With a stunning new full-colour design, a reorganized chapter on communication policy, and extensive updates throughout, the seventh edition of *Mass Communication in Canada* is essential reading for anyone studying this constantly evolving field.
