Hitler and Nazi Germany

Jul 25 2020 This text is a brief yet comprehensive survey of the Third Reich based on current research findings and it is written for students and general readers who want a deeper understanding of this period in German history. It provides a balanced approach in examining Hitler's role in the history of the Third Reich and includes coverage of the economic, social, and political forces that made the rise and growth of Nazism possible; the institutional, cultural, and social life of the Third Reich; the Second World War; and the

Holocaust. Hallmark Features An in-depth portrait of Adolf Hitler, the man and the leader--Coverage includes the influences on his early development, his character traits, his oratorical skills, his messianic pretensions, and an analysis of his ideology based on quotations from his writings and speeches. A thorough examination of the Holocaust--Includes coverage of anti-Semitism in Germany, Hitler's personal racial ideology and vision of Aryan purity, the mechanisms of terror and control, and the machinery of the Final Solution. The Jewish perspective is woven

throughout this coverage. Engaging coverage of the following topics: Anti-Jewish policies and the involvement of ordinary Germans in the Holocaust The political scene in Weimar Germany The role of Gregor Strasser in rebuilding the Nazi Party Walter Darré and "Blood and Soil" The internal consolidation of power Party-state relations Early Nazi economic policy The SS and the military between 1933-1939 Provides the most up-to-date research. Pedagogical Features Student Pedagogy--Includes maps, photos, bibliographies, and suggestions for further reading. David Redles,

Associate Professor of History at Cuyahoga Community College, contributed his expertise to the latest revision by revising and updating the text in accordance with the most recent scholarship in the field. Coverage of World War I has been reorganized to improve flow.

Includes a substantial amount of NEW coverage of cultur.

The Nazis Mar 25 2023 This history of the rise and fall of the Nazis addresses questions which have been raised over the past 50 years, and aims to dispel some of the myths. The book sets out to show that the reality of history is more painful and harder

to accept than the popular perception of a nation led astray by Hitler, the man of destiny, and to offer an understanding of the Nazi movement and of how the German people were seduced by it. *Hitler's Army* May 23 2020 As the Cold War followed on the heels of the Second World War, as the Nuremburg Trials faded in the shadow of the Iron Curtain, both the Germans and the West were quick to accept the idea that Hitler's army had been no SS, no Gestapo, that it was a professional force little touched by Nazi politics. But in this compelling account Omer Bartov reveals a very different history, as he

probes the experience of the average soldier to show just how thoroughly Nazi ideology permeated the army. In *Hitler's Army*, Bartov focuses on the titanic struggle between Germany and the Soviet Union--where the vast majority of German troops fought--to show how the savagery of war reshaped the army in Hitler's image. Both brutalized and brutalizing, these soldiers needed to see their bitter sacrifices as noble patriotism and to justify their own atrocities by seeing their victims as subhuman. In the unprecedented ferocity and catastrophic losses of the East front,

he writes, soldiers embraced the idea that the war was a defense of civilization against Jewish/Bolshevik barbarism, a war of racial survival to be waged at all costs. Bartov describes the incredible scale and destruction of the invasion of Russia in horrific detail. Even in the first months--often depicted as a time of easy victories--undermanned and ill-equipped German units were stretched to the breaking point by vast distances and bitter Soviet resistance. Facing scarce supplies and enormous casualties, the average soldier sank to a primitive level of existence, re-experiencing the

trench warfare of World War I under the most extreme weather conditions imaginable; the fighting itself was savage, and massacres of prisoners were common. Troops looted food and supplies from civilians with wild abandon; they mercilessly wiped out villages suspected of aiding partisans. Incredible losses led to recruits being thrown together in units that once had been filled with men from the same communities, making Nazi ideology even more important as a binding force. And they were further brutalized by a military justice system that

executed almost 15,000 German soldiers during the war. Bartov goes on to explore letters, diaries, military reports, and other sources, showing how widespread Hitler's views became among common fighting men--men who grew up, he reminds us, under the Nazi regime. In the end, they truly became Hitler's army. In six years of warfare, the vast majority of German men passed through the Wehrmacht and almost every family had a relative who fought in the East. Bartov's powerful new account of how deeply Nazi ideology penetrated the army sheds new light on how deeply it penetrated the

nation. Hitler's Army makes an important correction not merely to the historical record but to how we see the world today.

Encyclopedia of the Third Reich

Mar 01 2021

Identifies and describes people, places, events, and phenomena associated with Nazi Germany, covering the years 1933-1945

[El tercer reich en la historia y la memoria](#) May 03 2021

High Society in the Third Reich

Sep 07 2021 This book is the first systematic study of the relations between German high society and the Nazis. It uses unpublished archival material,

private diaries and diplomatic documents to take us into the hidden areas of power where privileges, tax breaks, and stolen property were exchanged. Fabrice D'Almeida begins by examining high society in the Weimar period, dominated by the old imperial aristocracy and a new republican aristocracy of government officials and wealthy businessmen. It was in this group that Hitler made his social debut in the early 1920s through the mediation of conservative friends and artists, including the family of the composer Richard Wagner. By the end of the

1920s, he enjoyed wide support among socialites, who played a significant role in his access to power in 1933. Their adherence to the Nazi regime, and the favors they received in return, continued and even grew until defeat loomed on the horizon. D'Almeida shows how members of German high society sought to outdo each other in showing zealous support for Hitler, how the old elites starting with the Kaiser's sons partied alongside parvenus, and how actors, aristocrats, SS technocrats, and diplomats came together to form a strange imperial court. Women also played a role in this

theatre of power; they were persuaded that they had gained in dignity what they had lost in civil rights. There emerges a fascinating and disturbing picture of a group that allowed nothing - not war, the plundering of Europe, nor the extermination of peoples - to alter their cynical enjoyment of pleasures: hunting, regattas, the opera, balls, dinners and tennis. More than a study of a class or a chronicle, this book lifts the veil that has concealed a society that used secrecy to protect itself. *High Society in the Third Reich* makes an important and unique contribution to the

current reevaluation of the extent to which German society, including German high society, was responsible for Hitler's accession to power and the crimes that were committed by his regime.

The 'Hitler Myth'
Apr 26 2023 The personality of Hitler himself can hardly explain his immense hold over the German people. This study, a revised version of a book previously published in Germany under the title *Der Hitler-Mythos: Volksmeinung und Propaganda im Dritten Reich*, examines how the Nazis, experts in propaganda, accomplished the virtual deification of

the Führer. Based largely on the reports of government officials, party agencies, and political opponents, Dr Kershaw charts the creation, growth, and decline of the 'Hitler Myth'.

From Racism to Genocide Jan 11 2022 From Racism to Genocide is an explosive, richly detailed account of how Nazi anthropologists justified racism, developed practical applications of racist theory, and eventually participated in every phase of the Holocaust. Using original sources, correspondence between anthropologists of the time, and previously

unpublished documentation, Gretchen Schafft shows the total range of anti-human activity from within the confines of a particular discipline. Based on seven years of archival research in this country and abroad, the work includes many original photos and documents, most of which have never before been published. It uses primary data and original texts whenever possible, including correspondence written by perpetrators. A discussion of Hitler's final solution, Nazi slave labor, and the rape of occupied Poland reveal the full horror of the Third Reich. Embedded

concepts of scientism, denial, academic responsibility, and race contribute to understanding some of today's most pressing social science issues. The book also reveals that the United States was not merely a bystander in this research, but instead contributed scientific and financial support to early racial r
Business and Industry in Nazi Germany Jan 31 2021 During the past decade, the role of Germany's economic elites under Hitler has once again moved into the limelight of historical research and public debate. This volume brings together a group of internationally

renowned scholars who have been at the forefront of recent research. Their articles provide an up-to-date synthesis, which is as comprehensive as it is insightful, of current knowledge in this field. The result is a volume that offers students and interested readers a brief but focused introduction to the role of German businesses and industries in the crimes of Hitler's Third Reich. Not only does this book treat the subject in an accessible manner; it also emerges as particularly relevant in light of current controversies over the nature of business-state

relations, corporate social responsibility, and globalization.

The Rise and Fall of the Third Reich Feb 12 2022 Since its publication in 1960, William L. Shirer's monumental study of Hitler's German Empire has been widely acclaimed as the definitive record of this century's blackest hours. *The Rise and Fall of the Third Reich* offers an unparalleled and thrillingly told examination of how Adolf Hitler nearly succeeded in conquering the world. With millions of copies in print around the globe, it has attained the status of a vital and enduring classic.

[Popular Opinion and Political Dissent in the Third](#)

[Reich, Bavaria 1933-1945](#) Dec 22 2022 Now updated with a new introduction and bibliography Ian Kershaw's classic study of popular responses to Nazi policy and ideology explores the political mentality of 'ordinary Germans' in one part of Hitler's Reich. Basing his account on many unpublished sources, the author analyses socio-economic discontent and the popular reaction to the anti-Church and anti-Jewish policies of the Nazis, and reveals the bitter divisions and dissent of everyday reality in the Third Reich, in stark contrast to the propaganda image of a 'National

Community' united behind its leaders.

The focus on one particular region makes possible a depth of analysis that takes full account of local and social variations, and avoids easy generalization; but the findings of this study of ordinary behaviour in a police state have implications extending far beyond the confines of Bavaria or indeed Germany in this period.

[Nazi Germany](#) Aug 26 2020 Nazi Germany:

Confronting the Myths provides a concise and compelling introduction to the Third Reich. At the same time, it challenges and demystifies the many stereotypes

surrounding Hitler and Nazi Germany. Creates a succinct, argument-driven overview for students by using common myths and stereotypes to encourage critical engagement with the subject

Provides an up-to-date historical synthesis based on the latest research in the field Argues that in order to fully understand and explain this period of history, we need to address its seeming paradoxes - for example, questioning why most Germans viewed the Third Reich as a legitimate government, despite the Nazis' criminality

Incorporates useful study features, including a

timeline, glossary, maps, and illustrations

Berlin Diary Apr 14 2022 Day-by-day, eyewitness account of the momentous events leading up to World War II in Europe. CBS radio broadcaster William L. Shirer was virtually unknown in 1940 when he decided there might be a book in the diary he had kept in Europe during the 1930s, specifically those sections dealing with the collapse of the European democracies and the rise of Nazi Germany.

The Third Reich Dec 10 2021 Professor Hildebrand gives a masterly and succinct account of Nazi Germany

between 1933 and 1945 and then analyses the major problems of interpretation and the extent to which common ground has been achieved by scholars in the field. This title available in eBook format. Click here for more information. Visit our eBookstore at: www.ebookstore.tandf.co.uk.

[Music in the Third Reich](#) Apr 02 2021 In this authoritative study, one of the first to appear in English, Erik Levi explores the ambiguous relationship between music and politics during one of the darkest periods of recent cultural history. Utilising material drawn from contemporary

documents, journals and newspapers, he traces the evolution of reactionary musical attitudes which were exploited by the Nazis in the final years of the Weimar Republic, chronicles the mechanisms that were established after 1933 to regiment musical life throughout Germany and the occupied territories, and examines the degree to which the climate of xenophobia, racism and anti-modernism affected the dissemination of music either in the opera house and concert hall, or on the radio and in the media.

[Inside the Third Reich](#) May 15 2022
The author, Hitler's

architect and later his armaments minister, was in the dictator's inner circle for almost 12 years. After the war, Speer used the enforced leisure of his 20 prison years as a war criminal to plan and write these memoirs. This is the most revealing document on the Hitler phenomenon yet written. It takes the reader inside Nazi Germany on four different levels: Hitler's inner circle, National Socialism as a whole, the area of wartime production and the inner struggle of Albert Speer.

Social Outsiders in Nazi Germany
Nov 09 2021 When Hitler assumed power in 1933, he and other Nazis had firm ideas on what

they called a racially pure "community of the people." They quickly took steps against those whom they wanted to isolate, deport, or destroy. In these essays informed by the latest research, leading scholars offer rich histories of the people branded as "social outsiders" in Nazi Germany: Communists, Jews, "Gypsies," foreign workers, prostitutes, criminals, homosexuals, and the homeless, unemployed, and chronically ill. Although many works have concentrated exclusively on the relationship between Jews and the Third Reich, this collection also

includes often-overlooked victims of Nazism while reintegrating the Holocaust into its wider social context. The Nazis knew what attitudes and values they shared with many other Germans, and most of their targets were individuals and groups long regarded as outsiders, nuisances, or "problem cases." The identification, the treatment, and even the pace of their persecution of political opponents and social outsiders illustrated that the Nazis attuned their law-and-order policies to German society, history, and traditions. Hitler's personal convictions, Nazi ideology, and what

he deemed to be the wishes and hopes of many people, came together in deciding where it would be politically most advantageous to begin. The first essay explores the political strategies used by the Third Reich to gain support for its ideologies and programs, and each following essay concentrates on one group of outsiders. Together the contributions debate the motivations behind the purges. For example, was the persecution of Jews the direct result of intense, widespread anti-Semitism, or was it part of a more encompassing and arbitrary persecution of "unwanted

populations" that intensified with the war? The collection overall offers a nuanced portrayal of German citizens, showing that many supported the Third Reich while some tried to resist, and that the war radicalized social thinking on nearly everyone's part. In addition to the editors, the contributors are Frank Bajohr, Omer Bartov, Doris L. Bergen, Richard J. Evans, Henry Friedlander, Geoffrey J. Giles, Marion A. Kaplan, Sybil H. Milton, Alan E. Steinweis, Annette F. Timm, and Nikolaus Wachsmann. *Life in the Third Reich* Oct 20 2022 Essays discuss political violence, village life, public

opinion of Hitler, Nazi policy against the Jews, social outcasts, and the experience of youngsters growing up in Nazi Germany

Pleasure and Power in Nazi

Germany Jan 19

2020 Although we associate the Third Reich above all with suffering, pain and fear, pleasure played a central role in its social and cultural dynamics. This book explores the relationship between the rationing of pleasures as a means of political stabilization and the pressure on the Nazi regime to cater to popular cultural expectations.

The Third Reich Jul 05 2021 This book presents a unique collection of some

of the most influential recent writing on vital aspects of Nazi Germany.

The Third Reich

Nov 21 2022 In this riveting book, Michael Burleigh sets Nazi Germany in a European context, showing how the Third Reich's abandonment of liberal democracy, decency and tolerance was widespread in the Europe of the period. He shows how a radical, pseudo-religious movement, led by an oddity with dazzling demagogic talents, seemed to offer salvation to a German exhausted by war, depression and galloping inflation. 'This is a monumental book.' Richard Overy,

Daniel Johnson, Daily Telegraph 'It is a breathtaking achievement, at once broader and deeper than any other single volume ever published on the subject. Indeed I would go further: it is the product of authentic historical genius.' Niall Ferguson, Sunday Times 'Happily, Michael Burleigh now fills that bibliographical gap, with a readable and highly knowledgeable account of that ghastly period. You will never be bored by this extraordinary book.' Andrew Roberts, Mail on

Sunday

Animals in the

Third Reich Jul 17

2022 "This is the first book to explore the paradox of the Nazi cult of animals and the obsession with the annihilation of "biologically inferior" people."

"Animals in the Third Reich begins by contrasting Jewish, Christian, and polytheistic traditions relating to animals in Germany, and examines the ways that the Nazi movement adopted, altered, challenged, or exploited these traditions. This discussion covers several perspectives on the treatment of animals, including those of zoologists, veterinarians, novelists, painters, sculptors, and the

general public.

Adopting and exploiting such traditions, the Nazis elaborated their own symbolic system of relating certain animals to supporters and antagonists of the movement - Aryan wolves and horses; Jewish pigs and apes."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved [Royals and the Reich](#) Jun 23 2020 The link between Hitler's Third Reich and European royalty has gone largely unexplored due to the secrecy surrounding royal families. Jonathan Petropoulos uses unprecedented access to royal archives to tell the

fascinating story of the Princes of Hesse and the important role they played in the Nazi regime.

Psychotherapy in the Third Reich

Mar 21 2020 The idea for this book

sprang from Geoffrey Cocks' curiosity as to what happened in the new, dynamic field of psychotherapy in Germany with the advent of Hitler. While traditional views merely asserted that the Nazis destroyed the field of psychotherapy in Germany, a viewpoint justifiably based on the testimony of those in the field who had emigrated from Germany to escape Nazi persecution, Cocks learned that there was more to

the story. He looked to several interesting shards of evidence that pointed to the possibility that one could reconstruct a history of morally questionable professional developments in German psychotherapy during the Third Reich. The evidence included: existence of a journal for psychotherapy published continuously from 1928 to 1944; accounts of a psychotherapist who assumed leadership of his colleagues and who was a relative of the powerful Nazi leader Hermann Goring; and a strong psychotherapeutic lobby in German medicine that was

intellectually impoverished but apparently not destroyed by the expulsion of the prominent and predominantly Jewish psychoanalytic movement. Non-Jewish psychoanalysts and psychotherapists had in fact pursued their profession under the aegis of the so-called Goring Institute, with substantial support from agencies of the Nazi party, the Reich government, the military, and private business. Much research has been done in the ten years since the first edition of this book was published, hence the need for a second edition. Included is more information on the

history of psychotherapy and psychoanalysis in Nazi Germany, on the social history of the Third Reich, and on the history of the professions in Germany. Three new chapters analyze postwar developments and conflicts as well as broader issues of continuity and discontinuity in the history of modern Germany and the West. In addition, the author has reorganized the volume along chronological and narrative lines for greater ease of reading. Psychotherapy in the Third Reich is an important work for psychotherapists, psychologists, psychoanalysts, sociologists, and

historians.

Germany Turns

Eastwards Nov 28

2020 A study of how relations between the Nazi regime & contemporary scholarly experts on eastern Europe eventually set an entire academic discipline on a path to biological racism through Nazi manipulation.

The Nazi

Dictatorship Feb

18 2020

'Unquestionably the most authoritative, balanced, readable, and meticulously documented introduction to the Third Reich.' - International History Review Sir Ian Kershaw is regarded by many as the world's leading authority on Hitler and the Third Reich. Known for

his clear and accessible style when dealing with complex historical issues his work has redefined the way we look at this period modern European history. The Nazi Dictatorship is Kershaw's landmark study of the Third Reich. It covers the major themes and debates relating to Nazism including the Holocaust, Hitler's authority and leadership, Nazi Foreign Policy and the aftermath, including issues surrounding Germany's unification. The Revelations edition includes a new preface from the author.

Germany.

1871-1945 Jun 04

2021 Germany,

1871-1945 presents an original, lucid, and thought-provoking history. Its aim is to inspire readers to weigh the historical evidence. At the end of the Second World War, the first unified German state collapsed, a disintegration with European and global ramifications. Ever since, historians have sought to explain what went wrong in German history. Many have focused on the violence which forged unification; others have highlighted the clash of authoritarian, anti-democratic, and anti-Semitic traditions with rapid industrialization and modernization.

Germany, 1871-1945 presents a pragmatic interpretation of German history, from the unification to the end of the Nazi regime. This more open approach acknowledges the strong trend in German society towards modernization and democratization, particularly before 1914, while also highlighting the factors which propelled Germany toward World War I. The rise of the Nazis also demands a close analysis of the economic and political instability of the 1920s and early 1930s. Finally, a detailed assessment of the Third Reich explains how the regime's early

successes fostered a loyalty and acceptance that remained hard to shake until disaster was obvious and unavoidable.

War and Economy in the Third Reich Mar 13 2022 This book examines the nature of the German economy during the 1930s and the Second World War. It will be of interest to scholars and students of German history and economics.

Nazism and German Society, 1933-1945 Oct 28 2020 The image of the Third Reich as a monolithic state presiding over the brainwashed, fanatical masses, retains a tenacious grip on the general public's imagination.

However, a growing body of research on the social history of the Nazi years has revealed the variety and complexity of the relationships between the Nazi regime and the German people. This volume makes this new research accessible to undergraduate and graduate students alike.

Resistance and Conformity in the Third Reich Oct 08 2021 This is a thematically arranged text illustrating popular resistance to Nazism in Germany from 1930-1945, and the affect of Nazism on everyday life. The book combines a lucid, synthesized analysis together with a wide selection of

integrated source material taken from pamphlets, diaries, recent oral testimonies, correspondence and more. Different chapters focus on social groups and activities, such as youth movements, religion, Jewish Germans, and the working classes.

Rise And Fall Of The Third Reich Jan 23 2023 The classic history of Adolph Hitler's rise to power and his dramatic defeat.

The Coming of the Third Reich

Feb 24 2023 Richard Evans' brilliant book unfolds perhaps the single most important story of the 20th century: how a stable and modern country in less than a single lifetime led Europe

into moral, physical and cultural ruin and despair. A terrible story not least because there were so many other ways in which Germany's history could have been played out. With authority, skill and compassion, Evans recreates a country torn apart by overwhelming economic, political and social blows: the First World War, Versailles, hyperinflation and the Great Depression. One by one these blows ruined or pushed aside almost everything admirable about Germany, leaving the way clear for a truly horrifying ideology to take command.

Burning the Reichstag Apr 21

2020 Delving into the controversy surrounding the fire that burned down the Reichstag and ignited the Third Reich, this gripping account of Hitler's rise to dictatorship reopens the arson case, profiling key figures and making use of new sources and archives to reinvestigate one of the greatest mysteries of the Nazi period.

Hitler and Nazi Germany

Aug 18 2022 This text is based on current research findings and is written for students and general readers who want a deeper understanding of this period in German history. It provides a balanced approach in examining Hitler's role in the history

of the Third Reich and includes coverage of the economic, social, and political forces that made the rise and growth of Nazism possible; the institutional, cultural, and social life of the Third Reich; the Second World War; and the Holocaust.

The 12-year Reich

Sep 26 2020 The Nazis, to enforce their grip on every citizen's allegiance, developed a social system unprecedented in history. It was rigidly hierarchical, with the seemingly beneficent and ascetic figure of Hitler at the top -- the focus for the homage and aspirations of every German man, woman, and child. How did the

"ordinary citizen" live under such a system? This book is filled with the facts, the data, and the details. The 12-Year Reich is the first comprehensive one-volume social history of Nazi Germany showing how Germans lived, worked, relaxed, and regarded themselves and others between 1933 and 1945. - Jacket flap.

Franco and Hitler

Sep 19 2022 Was Franco sympathetic to Nazi Germany? Why didn't Spain enter World War II? In what ways did Spain collaborate with the Third Reich? How much did Spain assist Jewish refugees? This is the first book in any language to answer these intriguing

questions. Stanley Payne, a leading historian of modern Spain, explores the full range of Franco's relationship with Hitler, from 1936 to the fall of the Reich in 1945. But as Payne brilliantly shows, relations between these two dictators were not only a matter of "realpolitik." These two titanic egos engaged in an extraordinary tragicomic drama often verging on the dark absurdity of a Beckett or Ionesco play. Whereas Payne investigates the evolving relationship of the two regimes up to the conclusion of World War II, his principal concern is the enigma of Spain's unique position during the war, as a

semi-fascist country struggling to maintain a tortured neutrality. Why Spain did not enter the war as a German ally, joining with Hitler to seize Gibraltar and close the Mediterranean to the British navy, is at the center of Payne's narrative. Franco's only personal meeting with Hitler, in 1940 to discuss precisely this, is recounted here in groundbreaking detail that also sheds significant new light on the Spanish government's vacillating policy toward Jewish refugees, on the Holocaust, and on Spain's German connection throughout the duration of the war."

Flags of the Third Reich (3) Dec 18 2019 In his book *Mein Kampf* Adolf Hitler claims that he made the decision to use the swastika as the emblem for his fledgling movement. He was responsible for the shape the swastika finally took, and for the choice of colours used, which set the pattern for all subsequent flags. In this third of a series of texts [MAA 270 & MAA 274], Brian L. Davis investigates the flags of the Third Reich party and police units, in a text complemented by numerous contemporary photographs, and eight full page colour plates by Malcolm McGregor. Men-at-Arms 270,

274 and 278 are also available in a single volume special edition as 'Flags of the Third Reich'.

[A Concise History of the Third Reich](#)

Aug 06 2021 This is an authoritative history of the twelve years of the Third Reich from its political takeover of January 30, 1939 to the German capitulation in May 1945.

[The Rise and Fall of the Third Reich](#) Jun 16 2022

History of Nazi Germany.

[Killing Hitler](#) Dec 30 2020

Most people have heard of the Stauffenberg Plot but it is not widely known that this was only one of a long series of attempts on the life of Adolf Hitler. The Germans, Soviets, Poles and British all

made plans to kill the Fuhrer. Lone gunmen, disaffected German officers and the Polish Underground, the Soviet NKVD and the British Special Operations Executive were all involved. Their methods varied from bombing, poisoning or using a sniper, to infiltrating the SS, or even sending

Rudolf Hess back to Germany under hypnosis. Many of the plans did not make it beyond the drawing board, some were carried out. All of them failed. Alongside the dramatic and largely unknown stories of Hitler's numerous assassins, this book presents a fascinating investigation of a number of broader issues, such as the

complex motives of the German Resistance, the curious squeamishness of the British, and the effectiveness of the Nazi security apparatus. Drawing on memoirs and original archival sources in Poland, Germany, Russia and Britain, Killing Hitler offers a unique perspective on the history of the Third Reich.
