Offers an introduction covering the MRCS exam with particular reference to OSCEs; an overview of clinical skills in history taking and physical examination; chapters covering sections of the exam with popular cases in the OSCE format at the end of each chapter; and, a layout with colour images. This, along with Book 2, is the essential revision book for candidates preparing for the Intercollegiate FRCS (Urol) examination. A concise guide tailored towards the curriculum and current exam style of the MRCOG Part 1 examination for obstetricians and gynaecologists. Suitable for candidates preparing for the MRCPCH exam, this title includes 24 specialty-based chapters that provide concise information in an accessible format. This comprehensive handbook is essential reading for all Part 1 MRCOG candidates. The NEW definitive guide form PasTest for candidates preparing for the intercollegiate MRCS exam. (Back cover). Designed to help medical students through their exams. Built around the successful 'Essential Revision Notes for MRCP', this title focuses on what is essential learning for medical undergraduates and gives readers an 'all round' knowledge of medicine at this level. Includes 16

subject-based chapters - covering the Royal College of Physicians' curriculum for Part 1 of the MRCP 1 examination. This title also includes comprehensive answers section that features explanations that enable the reader to develop the knowledge and confidence to pass the exam. This comprehensive revision guide contains everything students need to know to succeed on their A Level Film Studies course. Essential Revision for A Level Film Studies features engaging and accessible chapters to help learners develop a deeper understanding of the key elements of film form, including cinematography, mise en scène, performance, lighting, editing and sound. The book offers detailed explanations of the specialist study areas required for the A Level course, including auteur theory, spectatorship, genre, key critical debates, narrative and ideology, as well as overviews of key film movements like French New Wave cinema, German Expressionism and Soviet Montage. Also included are practical exercises designed to help students apply essential concepts to film set texts, sample exam responses for both Eduqas and OCR exam boards, and challenge activities designed to help students secure premium grades. With its practical approach and comprehensive scope, Essential Revision for A Level Film Studies is the ideal resource for students and teachers. The book also features a companion website at EssentialFilmRevision.com, which includes a wide range of supporting resources including revision flashcards and worksheets, a bank of film set text applications for exam questions for all film specifications, and classroom-ready worksheets that teachers can use alongside the book to help students master A Level Film exam content. Completely up to date with the latest examination changes, Get Through MRCPsych: MCQs for Paper 1 contains 640 'best answer 1 of 5' multiple choice questions (MCQs) presented in a format closely matching the new syllabus. Modelled on actual exam questions so that they accurately reflect the style and level of difficulty, candidates can test and assess their knowledge aiding thorough exam preparation. Providing useful revision advice on question comprehension and answer strategies, candidates can feel fully prepared when they enter the examination room. Featuring an invaluable collection of revision MCQs and detailed explanatory answers referenced to major journals and specialist textbooks, Get Through MRCPsych: MCQs for Paper 1 is the essential revision book for trainee psychiatrists. The definitive guide for Part 3 MRCOG candidates, written by the two examiners leading the development of the new exam. A revision book intended primarily for candidates sitting their MRCP Part 1 examination and which covers all the essential basic sciences. It focuses on the recurring themes which come up in the questions. The book also includes a chapter on clinical pharmacology (which alone accounts for up to 30% of the questions), looking at aspects of drug-induced disease and drug interactions. Finally there is a chapter on statistics and

epidemiology which is rarely covered in other texts, but is often included in the exam. Despite the changes to the teaching of the undergraduate in medicine and the integration of the basic sciences with clinical education, the junior doctor, faced with postgraduate examinations, is always going to be poorly prepared for those increasingly important subjects. This book presents the essential information in the form of lists, tables, diagrams and flow charts. Provides the most up-to-date material, matching the MRCS syllabus, to aid preparation for the MRCS A examinations. The aim of this book is to provide a selection of representative MCQs together with a detailed explanation of each answer covering the topic in depth. Each chapter has been written by experienced Urological surgeons who have already been successful in passing the examination. In addition to the FRCS(Urol) examination MCQs form the basis of equivalent postgraduate Urological examinations internationally and the scope of this book will be an invaluable addition to individuals sitting the FEBU and similar exams in the USA, Australia and Asian countries. Established consultants may also find the text useful as a 'refresher' in areas outside their subspecialist interest. Many topics in finance are hard for students to understand. Corporate Finance: get it, read it, PASS is a short revision text presenting the essentials that students have to learn to pass their Corporate Finance module. This book will teach students difficult theory and show them how to solve challenging problems in an effective way, using as few words as possible. It will include demonstrative examples with complete solutions. As the first revision text aimed specifically at the Knowledge-Based Assessment, Essential Revision Notes for Cardiology KBA is the cornerstone of your revision for this new and compulsory examination. Each chapter exactly maps the core cardiology training curriculum, giving measurable assurance that you are getting the information you need to pass. Each chapter is written by a senior cardiology trainee in collaboration with a senior consultant who has expertise in that specific field, ensuring that the content is both authoritative and accessible. Drawing on the latest guidelines and documents, the concise, bullet-pointed layout allows easy access to and digestion of the key points you'll need during revision. Numerous tables, boxes and figures make this the ideal accompaniment to retaining the large and varied amount of information needed to pass the examination. A trusted editor turns his attention to the most important part of writing: revision. So you've just finished writing something? Congratulations! Now revise it. Because revision is about getting from good to better, and it's only finished when you decide to stop. But where to begin? In On Revision, William Germano shows authors how to take on the most critical stage of writing anything: rewriting it. For more than twenty years, thousands of writers have turned to Germano for his insider's take on navigating the world of publishing. A professor, author, and veteran of the book industry, Germano knows what editors want and what writers need to know: Revising is not just correcting typos. Revising is about listening and seeing again. Revising is a rethinking of the principles from the ground up to understand why the writer is doing something, why they're going somewhere, and why they're

taking the reader along with them. On Revision steps back to take in the big picture, showing authors how to hear their own writing voice and how to reread their work as if they didn't write it. On Revision will show you how to know when your writing is actually done—and, until it is, what you need to do to get it there. Media Theory for A Level provides a comprehensive introduction to the 19 academic theories required for A Level Media study. From Roland Barthes to Clay Shirky, from structuralism to civilisationism, this revision book explains the core academic concepts students need to master to succeed in their exams. Each chapter includes:

- Comprehensive explanations of the academic ideas and theories specified for GCE Media study.
- Practical tasks designed to help students apply theoretical concepts to unseen texts and close study products/set texts.
- Exemplar applications of theories to set texts and close study products for all media specifications (AQA, Eduqas, OCR and WJEC).
- Challenge activities designed to help students secure premium grades.
- Glossaries to explain specialist academic terminology.
- Revision summaries and exam preparation activities for all named theorists.
- Essential knowledge reference tables.

Media Theory for A Level is also accompanied by the essentialmediatheory.com website that contains a wide range of supporting resources. Accompanying online material includes:

- Revision flashcards and worksheets.
- A comprehensive bank of exemplar applications that apply academic theory to current set texts and close study products for all media specifications.
- Classroom ready worksheets that teachers can use alongside the book to help students master essential media theory.
- Help sheets that focus on the application of academic theory to unseen text components of A Level exams.

Reflecting the new exam format, MRCOG PART 1: 550 SBAs AND MCQs offers the most up-to-date and comprehensive coverage of practice questions, for trainees preparing for the MRCOG Part 1 exam. Presented in a clear layout, chapters are mapped to the syllabus to deliver structured revision in all the key topics. Featuring a wealth of practice questions and fully descriptive answers, this book provides the essential revision text to maximise chances of exam success. 550 questions, reflecting the breadth of topics encountered in the actual exam Answers feature concise descriptions to consolidate knowledge and understanding Extensive evidence-based referencing to relate theory to clinical practice Includes two complete mock papers to practice and improve exam technique Visually-enhanced answers to improve understanding of key concepts This, along with Book 1, is the essential revision book for candidates preparing for the Intercollegiate FRCS (Urol) examination. Surgical trainees have very busy clinical duties and along with personal commitments this means that time for exam revision is very tight and often done during tired evenings and weekends. Essential Revision Notes for FRCS (Urol) - Book 2 provides a precious concise collection of facts, information and guidance for the benefit of all urology trainees and in particular those sitting the FRCS (Urol) who therefore already possess undergraduate medical knowledge and basic training in surgery. It is designed to be a highly effective tool to pass the FRCS (Urol) and, along with its sister volume, Book 1, forms the only set of textbooks in the world that separates

urological knowledge into the 8 different stations of the exam. All content is neatly summarised into bite-size paragraphs, thus removing the task of information gathering and synthesizing which is time-consuming for the busy trainee. Diagrams and tables display information in a visually attractive and simplified way to aid trainee revision. About the author Jack Donati-Bourne is a final year NTN urology trainee in the West Midlands Deanery. He was raised in Rome (Italy) but moved to the UK to study Medicine, qualifying at the University of Birmingham in 2010, later achieving a Merit Award for an MSc in Anatomy at the same institution. He successfully proceeded to obtain Membership (MRCS, 2013) and subsequently Fellowship of the Royal College of Surgeons of England (FRCS Urol., 2019). He has written more than 10 first-author publications in peer-reviewed journals and led presentations on an international surgical platform in 8 different countries. Jack Donati-Bourne has a passion to teach, encourage and inspire trainees and has been invited to lead an MRCS revision session in the Royal College of Surgeons in London, moderated undergraduate exams for the University of Birmingham Medical School and taught on the FRCS (Urol) Rapid Revision Course. He is an avid supporter of Inter Milan and of the "Azzurri." Provides the most up-to-date material, matching the MRCS syllabus, to aid preparation for the MRCS A examinations. The book covers every major subject in the MRCS syllabus; works systematically through every general surgical topic likely to appear in the exam; highlights important principles of Surgery; contains important lists and vital points; is clearly laid out with illustrations to aid understanding. A fully updated and illustrated handbook providing comprehensive coverage of all curriculum areas covered by the MRCOG Part 1 examination. Neurological disorders account for 10% of consultations in primary care and 20% of acute hospital admissions, yet there is good evidence that 'neurophobia' is common among medical students lost in unnecessary detail. This has led to neurology's long-established reputation as a difficult subject. This book is the antidote to neurophobia. It is divided into four sections: Section I introduces the reader to clinical neurology by summarising the basic aspects of a neurological consultation including history and examination; Section II covers neurological signs related to cranial nerves, motor and sensory system and peripheral nerve lesions; Section III comprises the major and common diseases such as headache, epilepsy, stroke, Parkinson's disease and Multiple sclerosis; and Section IV addresses other main neurological problems. The scope of this book is limited to only the most fundamental principles and omits all superfluous detail - ideal for medical students needing a concise introduction to neurology and an overview for revision. A unique reference book covering the relevant basic sciences of cardiac anatomy, physiology and pharmacology through to the initial clinical assessment and investigation. It covers the core curricula for paediatricians in training at all levels including the MRCPCH and DCH examinations. This book is relevant to paediatricians in training, general practitioners, emergency department staff and specialist nurses. General staff working in specialist regional cardiac centres and healthcare professionals

involved in the care of children and young people will also find this essential resource extremely useful. 'The aim of this handbook is to provide a rapid and reliable reference to congenital and acquired cardiac problems. It is very well organised. provides a more detailed discussion of cardiac physiology and pathophysiology and a comprehensive guide to ECG interpretation. It should be of particular interest to paediatricians in training, including those studying for higher professional examinations, but it also provides a valuable source of reference for paediatricians already in practice.' From the Foreword by Dr Christopher Wren Featuring a wealth of practice questions, MRCS Part A: 500 SBAs and EMQs allows trainees to test themselves on everything they need to know to pass the MRCS Part A exam. A fully updated and illustrated handbook providing comprehensive coverage of all curriculum areas covered by the MRCOG Part 1 examination. Designed for the MRCPsych Parts 1 and 2, this book is a helpful aid to candidates both before and after the exam. It covers basic science and clinical psychology and contains 30 chapters that follow the MRCPsych Parts 1 and 2 syllabuses. Suitable for candidates preparing for the intercollegiate MRCS exam, this title presents the essential facts in each subject area in note form with special attention given to areas that are often poorly understood. The definitive guide to revision for the MRCPCH examination. 25 Chapters covering all areas the MRCPCH syllabus in note format. Concise presentation of information, with hints and tips. Vital facts presented in an attractive user-friendly format. Diagrams, pie charts, lists, illustrations and bullet points to aid learning. Essential Revision Notes in Surgery for Medical Students provides detailed 'need to know' information for medical students. Third year students wishing to reinforce their knowledge will find it invaluable as will 5th years wanting to prepare for their examinations. This new title focuses on what is essential learning for medical undergraduates and gives readers an 'all round' knowledge of surgery at this level. It includes essential elements of theoretical knowledge and clinical diagnosis combined into a quick but thorough revision aid. Popular conditions are used to illustrate key learning points. Concise information is contained within an easy to follow format. Each chapter is written by experienced authors within their fields. A guide to the core basic sciences - anatomy, physiology and pathology - which comprise the essential knowledge required by the trainee entering the specialty of surgery. It focuses on those topics which tend to be recurring examination themes for initial surgical training. MRCP 1 Multiple True/False Revision Book carefully reflects the content of the Royal College examination and the book accordingly reflects the multiple true/false questions for the first paper of the actual MRCP Part 1 exam. - Featuring over 600 PasTest multiple true/false questions in one volume, this publication gives candidates all the practice they need for the MRCP 1 Paper 1 exam - Chapters arranged by subject, reflecting the actual exam content to test candidates' knowledge and

highlight weak areas for further revision - Checklist of vital topics for effective revision - Revision Index for easy access to specific topics - Useful list of popular topics for the MRCP 1 exam Includes 21 chapters that cover the syllabus for the MRCP 1 examination. This title features vital medical facts presented in note format to aid revision. It offers the reassurance of being up-to-date with the facts that matter. It contains key points presented in diagrams, illustrations, lists, tables and mnemonics to aid learning. Completely up-to-date with the current MRCPsych Paper 1 examination, this list-based revision guide provides comprehensive coverage of the syllabus. It offers a focused set of essential notes that create a solid knowledge base for the candidate, rather than relying only on MCQs and EMIs for self-testing. Individual chapters are dedicated to each of the main topics within the curriculum and the succinct, bullet-point format aids recall and offers a realistic and user-friendly method for retaining knowledge. Key points are presented in manageable portions fostering confidence and encouraging further investigation. Written by a current trainee, Revision Notes for MRCPsych Paper 1 provides the most closely linked and relevant guide for candidates. It is also a highly useful reference for all Royal College candidates and medical and nursing students wanting an accessible introduction to psychiatry. This best-seller has been completely revised and updated to provide the definitive guide to revision for all candidates preparing for the MRCS Core Modules examination. It gives a unique presentation of the key elements of all subjects covered in the Core Modules syllabus. Vital facts are presented in a clear concise format with diagrams and user-friendly summaries of the essential facts. Designed to make learning easier, no candidate should be without this excellent book. This concise revision text brings together the fundamentals of the basic sciences required for Obstetrics and Gynaecology trainees to pass the MRCOG Part 1 exam. A note-style format and over 100 illustrations make this the ideal revision guide to passing the exam. Following the super-success of their MRCP Part 2 volume, the authors adapt their special teaching skills to the needs of MRCP Part 1 and similar exams in internal medicine. The book consists of 360 Best of 5' multiple choice questions (1,800 clinical decision) reflecting the latest exam format. It covers all areas of clinical medicine needed by ex The MRCOG Part 2 examination is perhaps one of the hardest professional examinations for the medical profession. This text outlines essential examination knowledge. It offers the reader insight and knowledge on each area of obstetrics and gynaecology. It provides notes on audit, development of protocols, incident reporting and risk management.
