Serpico Jan 26 2020 The 1960s was a time of social and generational upheaval felt with particular intensity in the melting pot of New York City. A culture of corruption pervaded the New York Police Department, where payoffs, protection, and shakedowns of gambling rackets and drug dealers were common practice. The so-called blue code of silence protected the minority of crooked cops from the sanction of the majority. Into this maelstrom came a working class, Brooklyn-born, Italian cop with long hair, a beard, and a taste for opera and ballet. Frank Serpico was a man who couldn't be silenced -- or bought -- and he refused to go along with the system. He had sworn an oath to uphold the law, even if the perpetrators happened to be other cops. For this unwavering commitment to justice, Serpico nearly paid with his life.

Social and Sustainability Marketing Nov 29 2022 "... an important intervention in the conversation around social and ecological sustainability that draws on both micromarketing and macromarketing scholarship to help the reader understand the challenges with illustrations from insightful cases both from emerging and developed economies. This compilation should be essential reading for the discerning student of sustainable consumption and production." -- Professor Pierre McDonagh, Associate Editor, Journal of Macromarketing (USA); Professor of Critical Marketing & Society, University of Bath, UK Experts in the field of economics, management science, and particularly in the marketing domain have always been interested in and acknowledged the importance of sustaining profitable businesses while incorporating societal and environmental concerns; however, the level of existing literature and availability of teaching cases reflect a dearth of real case studies, especially those focused on marketing for social good. This book of actual case studies will address that need. In addition, this book is important and timely in providing a case book for instructors (those in both industry and academia) to help them in teaching and training the next generation of leaders through corporate training and universities. Currently, marketing for social good is increasingly becoming a part of most curriculums under the umbrella of different titles, such as social marketing, green marketing, and sustainability marketing. The relevance of these studies is increasing across the globe. This book is composed of long and short real cases with varying complexity in different sectors. This case book will also cover some review articles for an overview of the recent developments in the study area. With these case studies, collections of questions, teaching materials, and real-life marketing scenarios, this book offers a unique source of knowledge to marketing professionals, students, and educators across the world. The main objective of this case book is to understand the

applicability of marketing science (marketing for social good context, such as social marketing and sustainability marketing) in internet marketing related to e-buying behavior and e-WOM. In addition, it illustrates the various types of existing marketing practices that are relevant from both theoretical and practical points of view in this electronic era, as well as discussing other non-electronic marketing practices and focusing on consumer buying behavior. As a result, marketing managers can treat their customers according to their desired value. This book particularly explores the possibilities and advantages created by social marketing and sustainability marketing through the presentation of thorough review articles and case studies. This case book helps corporate training centers and universities with compact teaching reference materials in their relevant courses.

Cancer and Aging Mar 10 2021 Cancer is clearly an age-related disease. Recent research in both aging and cancer has demonstrated the complex interaction between the two phenomena. This affects a wide spectrum of research and practice, anywhere from basic research to health care organization. Core examples of these close associations are addressed in this book. Starting with basic research, the first chapters cover cancer development, mTOR inhibition, senescent cells altering the tumor microenvironment, and immune senescence affecting cancer vaccine response. Taking into account the multidisciplinary of geriatric oncology, several chapters focus on geriatric and oncologic aspects in patient assessment, treatment options, nursing and exercise programs. The book is rounded off by a discussion on the impact of the metabolic syndrome illustrating the interactions between comorbidity and cancer and a chapter on frailty. This book provides the reader with insights that will hopefully foster his or her reflection in their own research and practice to further the development of this most exciting field. Given the aging of the population worldwide and the

high prevalence of cancer, it is essential reading not only for oncologists and geriatricians but for all health practitioners.

HAPPY SERVING Aug 03 2020 I have spent 25 years or so in the pre-engineered steel industry in the service avenues of engineering, customer service, internal sales, and external sales. Most of my life has also been centered around ministry in various fashions. I have been a Music Director, Choir Director, Youth Minister, Sunday School Teacher, and Pastor. You do not spend that much time around people living life, and not learn a few things along the way. My training and core strength of analyzing people and processes has allowed me to see the character and work ethics of youngsters and seniors alike. I hope my sharing of this knowledge encourages you to lead by example with the most moral and astounding work ethic possible. I attended Oklahoma Baptist College, Oklahoma City, OK and Tri-State Baptist College, Memphis, TN. My stress relieving passion is bass fishing, but I also enjoy trout fishing for the beautiful scenery involved. The common phrase, "The tug is the drug" is true for me.

"Deeply Imagined"—The New York Times / "Daring and Brilliant"—Ron Charles, Washington Post / "Vivid"—Elle / "One of the finest novels you will read this year."—Flavorwire It's 1980 at a crowded amphitheater in Queens, New York and a nervous Josiah Laudermilk, age 12, is about to step to the stage while thousands of believers wait to hear him, the boy preaching prodigy, pour forth. Suddenly, as if a switch had been flipped, Josiah's nerves shake away and his words come rushing out, his whole body fills to the brim with the certainty of a strange apocalyptic vision. But is it true prophecy or just a young believer's imagination running wild? Decades later when Josiah (now Josie) is grown and has long since left the church, he returns to Queens to care for his father who, day by day, is losing his grip on reality. Barreling through the old neighborhood, memories of the past--of his childhood friend Issy, of his first love, of the mother he has yet to properly mourn--overwhelm him at every turn. When he arrives at his family's old house, he's completely unprepared for what he finds. How far back must one man journey to heal a broken bond between father and son? In rhapsodic language steeped in the oral tradition of American evangelism, Scott Cheshire brings us under his spell. Remarkable in scale--moving from 1980 Queens, to sunny present-day California, to a tent revival in nineteenth century rural Kentucky--and shot-through with the power and danger of belief and the love that binds generations, *High as the Horses' Bridles* is a bold, heartbreaking debut from a big new American voice.
