

Reykjavík, Josef's story becomes science fiction as he crosses paths with the outlandish CEO of a biotech company (based closely on reality) who brings the story of genetics and genesis full circle. But the future, according to Sjón, is not so dark as it seems. In CoDex 1962, Sjón has woven ancient and modern material and folklore and cosmic myths into a singular masterpiece—encompassing genre fiction, theology, expressionist film, comic strips, fortaean studies, genetics, and, of course, the rich tradition of Icelandic storytelling.

Rachel and the young angel Dill are dragged off to the Temple torture chambers . . . but strange things start to happen as a foul red mist rises from the abyss beneath the city. For the god Ulcis's death has left the gates to Hell unguarded, and certain forces in the fathomless darkness beneath Deepgate have noticed an opportunity. Only the offspring of the dread goddess Ayen understand this new danger. Already, Cospinol, god of brine and fog, is coming to save his brother's temple -- and to hunt down Ulcis's murderers. His foul, fog-wreathed skyship has already reached Sandport, bringing along its own version of hell. By now, Rachel just wants to keep her companion alive. Escaping their prison, and with enemies closing in on all sides, she is forced to undertake a perilous journey across the Deadsands towards the distant land of Pandemia.
