A brand new look at the extremely beautiful, if underappreciated, later works of one of the most inventive artists of the 20th century Between 1935 and his death at midcentury, Henri Matisse (1869-1954) undertook many decorative projects and commissions. These include mural paintings, stained glass, ceramic tiles, lead crystal pieces, carpets, tapestries, fashion fabrics, and accessories--work that has received no significant treatment until now. By presenting a wealth of new insights and unpublished material, including from the artist's own correspondence, John Klein, an internationally acclaimed specialist in the art of Matisse, offers a richer and more balanced view of Matisse's ambitions and achievements in the often-neglected later phases of his career. Matisse designed many of these decorations in the innovative--and widely admired--medium of the paper cut-out, whose function and significance Klein reevaluates. Matisse and Decoration also opens a window onto the revival and promotion, following World War II, of traditional French decorative arts as part of France's renewed sense of cultural preeminence. For the first time, the idea of the decorative in Matisse's work and the actual decorations he designed for specific settings are integrated in one account, amounting to an understanding of this modern master's work that is simultaneously more nuanced and more comprehensive. The range of national orders and military decorations produced during the Nazi regime had a significant effect on the design of later awards in other parts of the world, including the United States and Soviet Union. This is the first definitive chronology to cover the entire range of Nazi medals and decorations in a single volume. Depicted with color photography are examples that still exist and with specially commissioned line drawings and surviving plates from wartime archives are shown those not known to be part of any modern collection. Includes ribbons, medals, citations, cases, designers' marks, advice for collectors and a price guide to post-1945 reproductions. Hardbound, 7 1/2" x 9 1/2", 160 pages, 53 b&w and 116 color illustrations Tomato roses, fresh cheese on salad cucumbers, leek flowers, or melon stars -- learn simple step-by-step directions on how to give the final, eye-catching touch to a buffet or to your dinner table. Make a garnished plate look even more delicious with an apple swan, a carrot flower, or a radish rose. Veteran chef Georg Hartung not only offers creative tips for trimming the plate with fruits and vegetables, but also how to use butter and cocoa for decorations. Sections include tips for serving various kinds of skewers, cheese and ham platters, and canapes. These easy and quickly prepared "little works of art" will add to the appetizing flavor of any meal or dinner party. Using the stitching and beading techniques demonstrated here, anyone can create an heirloom-quality piece. Each step is illustrated with diagrams and full color photographs, from using silk and metallic threads to design basics to creating complex effects with simple stitches. Use any colors, as well as miniature balls, beads, sequins and bells, to create a truly distinctive decoration. This amazing book will walk you through the school year, give you a crash course on the church's year, and suggest customs you can use with children of all ages from Advent to Easter, fall to summer. With India's independence in 1947 and emergence as a fully self-governing republic in 1950, new awards were created to reward Indian citizens for bravery and national service. While these new national awards grew out of the historical heritage of the period of British rule, they also represented the unique values of the new republic. This book presents a systematic overview of the official military, police, and civilian awards of the Republic of India from 1947 through to the present day. In addition to presenting a detailed catalogue of official awards, this work also surveys the development of policy on such awards, considers their changing legal status, and provides a critique of the policies that governed their creation and bestowal. While focusing on official national awards, the book also provides information on Indian provincial awards, on foreign awards given to Indians, and on awards of the pre-1947 Provisional Government of Free India. While much space is necessarily devoted to military awards, attention is also given to civilian awards, to the awards of the police and fire services and to the other official awards of the Indian Republic. This is the first book to focus on this important topic and should be of special interest to those in the defence and other uniformed services, to national policy makers, to students and collectors of decorations and medals, and to those with an interest in the social and political history of India. Members of the general public with an interest in how such national honours are awarded or with a curiosity over the meaning of all those bits of coloured silk that are worn on uniforms, will find this a useful and handy work of reference. **THE WILEY EVENT MANAGEMENT SERIES** The essential guide to making your events extraordinary Practical strategies for designing and decorating special events Event planners need professional-caliber information that explains how to decorate a venue for a special event—from assessing the client's decor needs and objectives to staying within a budget. Excerpt from Medals and Decorations of the British Army and Navy, Vol. 2

The fact that the naval and military forces of the Crown which had taken part in the Peninsula War, and in contemporaneous operations in other parts of the world, had not generally received any decoration commemorative of their services, whilst all the army which fought at Waterloo had received a medal, appears to have given rise to a feeling of dissatisfaction which, although it did not become the subject of official discussion, was for many years ventilated in military circles and in the press.

'Urban Design: Ornament and Decoration' focuses on decorating the city and how ornament has been used to bring delight to the urban scene. The authors show how the pattern and distribution of street and square and other major elements in the city can be enhanced by the judicious use of decorative surface treatment and by the careful placing of hard and soft landscape features. This second edition, updated by Cliff Moughtin and now available in paperback, includes a new chapter on mud architecture. Case studies of city decoration are also outlined to bring together the ideas discussed and to show how ornament and decoration can be used to emphasize the five components of city form: the path, the node, the edge, the landmark and the district.
